Diabetic Foot Care

If you are diabetic, you can save your feet from unnecessary complications by seeing a podiatrist for routine foot care. Because diabetes damages the nerves in your feet, it is easy to miss foot problems or even injure yourself simply because you can't feel the pain that is your body's normal warning system. Routine diabetic foot care is covered by nearly all insurances.

Did You KNOW?

56 men signed the Declaration of Independence

Names like John Adams, Benjamin Franklin, Thomas Jefferson, and, of course, John Hancock might instantly come to mind when pondering the men who signed the Declaration of Independence in 1776. But what about the remaining signatories to the founding document of the

United States? According to the National Archives, 56 men signed the Declaration of Independence, and even historians and armchair history buffs might be hard pressed to name all 56 signers of the pivotal document. Some might even be surprised to learn that various notable figures from the era were not among the 56 signers on the Declaration of Independence, a list that includes Alexander Hamilton, John Jay and George Washington. George Mason, another influential figure of the era, also decided against signing the Declaration of Independence, citing its lack of a "Bill of Rights" as motivation for keeping his pen to himself.

Did you know?

Americans will celebrate the 250th anniversary of the United States in July 2026, and the word "semiquincentennial" may come up in conversation during those celebrations.

Some people may not be familiar with the term and what it means. A semiquincentennial is the 250th anniversary of something. It breaks down to "half" of a "quincentennial," which is 500 years. Synonyms may include sestercentennial, bisequicentennial or quartermillennial. Each term refers to a period of 250 years. It's a rather large word for a simple meaning, but people are bound to hear more of it as 2026 goes on and Independence Day is celebrated on July 4.
