Richard L. Dotta Auction Co. Inc.
Selling Vintage Pews with 100%
Benefitting St. John's UCC of Nazareth

Richard L. Dotta Auction Co. Inc. of Nazareth will be selling vintage pews from St. John's United Church of Christ (UCC) at 183 South Broad Street, Nazareth, PA at its July Online General Auction on Wednesday, July 15. One hundred percent of the pews' sales will go directly to benefit St. John's UCC. (Images provided.)

"This invaluable furniture has been witness to decades of baptisms, weddings, confirmations, funerals, sacred music concerts, Nazareth Area High School music performance competition practices, UCC denominational leader visits, 50th wedding vow renewals, handbell concerts, and so much more," said St. John's UCC Reverend Jeffery Brinks. "It's hard to put a price on this furniture, but we do hope there's some good bidding!"

The pews measure approximately 14 feet in length.

Bidding is available in this Dotta Auction online auction until it starts to close at 4 pm on July 15. This sale also features Disney items, country collectibles, vintage comic books, dolls, furniture, and sports memorabilia. To view images of these pews and a more detailed description, click to the auction's catalog found under Auction Calendar on www.dottauction.com.

Reverend Brinks continued to explain the reason for the pews removal. "We largely removed these pews to alter the floor plan of the sanctuary to meet the evolving needs of our church family. This includes space for our Contemporary Music Program, including guitars, drums, keyboard, and vocals. Accessible seating is also now available for parishioners," said Reverend Brinks.

Dotta's will have an open house for this sale for those interested in viewing these vintage, collectible church furniture. The July Online General Auction Preview Day will be held on Tuesday, July 14 12- 5 pm at the Dotta Auction Center, located just miles from the church, at 330 West Moorestown Road, Nazareth, PA.

Serving a GROWING Community...

Our circulation provides advertisers with the largest, free, U.S. mail circulated weekly newspaper in Northampton County.

Giving back never retires at Traditions of Hanover

Giving back never retires. At Traditions of Hanover, residents are regularly introduced to local nonprofits and service organizations, gaining insight into important work taking place throughout the area and discovering new ways to contribute their time and talents.

Traditions of Hanover has long cultivated relationships with groups that enrich the lives of others, providing residents with opportunities to remain involved beyond the community's walls. Through volunteer efforts, educational programs, and civic participation, residents continue to pursue their interests, share their experiences, and make meaningful connections with those around them.

Executive Director Cathy Heimsoth said, "We believe that community is more than where you live—it's how you live and whom you spend your time with. Our culture encourages residents to form lasting friendships, support one another, and remain actively connected to the world around them, creating an environment where everyone can thrive."

Most recently, the management team organized a visit with staff from Equi-librium, a nonprofit dedicated to healing through horses. Residents received an overview of the organization's mission and how equine-assisted services are improving the lives of individuals facing physical, developmental, and behavioral challenges. They also interacted with Star, a specially trained miniature horse used in outreach programs.

Nestled on an 18-acre historic farm in Nazareth, Pennsylvania, Equi-librium provides healing through horses by implementing equine-assisted services to help individuals with physical, developmental, and behavioral challenges.

Equi-librium is one example of the many organizations Traditions of Hanover works with throughout the year. Other partnerships have included Meals on Wheels, The Bag of Hope, the Alzheimer's Association, and students from Moravian University, helping residents take part in a wide range of service projects, educational and intergenerational programs, fundraising, and other charitable efforts.

"I've realized people look for a handful of qualities in a dentist. Truly focus on those and we will succeed." Monica Dilger, DMD

- High-quality**, professional dental work with a gentle touch.
- Honesty and Integrity**: Patients want to feel confident the recommended treatment is what they really need for their oral health, not just some money grab.
- Pricing transparency**: Reviewed treatment plans to avoid or reduce unexpected bills.
- Caring**: A practice that sees patients as people, not just dollar signs. Warm greetings, friendly bedside manner, and genuine care for our community members go a long way!

Coleman Data Center Moratorium Legislation Advances in Senate

Sen. Jarrett Coleman's (R-16) legislation allowing municipalities to place a moratorium on data center development applications, Senate Bill 1345, advanced out of the Senate Local Government Committee today.

"I hear from my constituents almost every day about their concerns with data center projects," said Coleman. "My legislation empowers local communities to push the pause button on data centers in order to regulate these projects on their own terms."

Senate Bill 1345 would give municipalities the option of placing an 18-month moratorium on both unapproved and new data center applications so they can revise zoning ordinances and establish policies addressing issues like power supply, water consumption, noise and setbacks which they determine protect the community's interests.

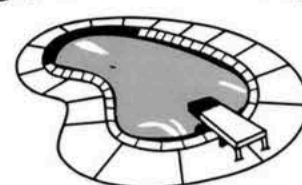

Currently, municipalities, which decide local land use policies, are struggling to fully understand the complex environmental and community impacts of this new industry while also reviewing and revising their zoning ordinances to keep up with the influx of interest from data center developers. The optional moratorium in Senate Bill 1345 and would help alleviate this problem.

"We have a chance to get this right, and my legislation will give our communities the breathing room they need to do it," said Coleman.

Coleman has been a vocal opponent of the expedited approval of data centers, seeking instead to find a balance between enhancing the state's technological footprint and ensuring the safety and well-being of Pennsylvania communities.
